

Pensions administration client internet access

LCP PACIA - CLIENT INTERNET ACCESS

AUGUST 2010

Many of our clients want access to the membership data that we hold, together with a facility to store all of their scheme's important documents in one place.

We recognise that the use of technology has become an essential part of providing a high quality pensions administration service. We can offer secure read-only internet access to your own scheme membership data, uploaded nightly from our pensions administration system.

The system also provides access to a secure area where any specified reports or documents can be stored in pdf format. This enables you to store all scheme documents in one safe place and for these to be accessed anywhere at anytime.

Key benefits:

- easy access to your own scheme data;
- save time searching for, or requesting, information;
- respond to individual member enquiries more efficiently;
- facility to store important scheme documents, general member communications and regular reports online; and
- provides reassurance that all your scheme documents are held securely and backed-up.
